'Padlocked' BY Rex Beach

What a sweeping revolution of this restless age!—An exciting, dramatic expose of today's morals—Of a girl—and of the Broadway theatrical and night life environment in which she struggles from the depths to a glorious victory.

No more powerful a theme than this up to the minute tale of a girl of today has ever reached the screen. By far this author's finest story.

'Padlocked' from the harmless pleasures of life, she rebels against a bigoted father—and!

Coming Next Wednesday

"The Silver Treasure."

Coming Next Fri. & Sat.

"His People."

Stores Closed On Monday

Monday, Nov. 8 being Thanks, giving Day all the stores in Champion will be closed all day.

Watkins-Chase

Of real interest to a host of friends in Champion, was the marriage of Nellie, daughter of Mr. and Mrs. J. Chase, and Mr. Ira Watkins, at the Anglican church Drumheller, on Monday evening Nov. 1 at 7 o'clock. Only intimate friends of the bride and groom were present at the ceremony.

The bride made a lovely picture in pale pink georgette. She carried a shower bouquet of pink roses and was unattended.

Miss Kathleen Watkins, sister of the groom, played the wedding march.

Directly after the ceremony a reception was held at the home of the bride's sister Mrs. Patterson which only the immediate friends were present.

Mr. and Mrs. Watkins left for the east where the wedding trip will be spent.

Frank Starr returned from Nebraska to Champion on Monday where he was called by the dangerous illness of his mother arriving there three days before her death. The deceased was 91 years old at the time of her death.

Musical Comedy Co'y Making Good Progress

Under the direction of J. M. Watkins, the local company which is putting on the musical comedy "Cherry Blossom" is fast rounding into form and it is expected to be ready for the public at an early date. Mr. Watkins states the musical numbers will be of a high order some excellent Champion talent being developed for the occasion. Watch for the date of presentation.

O. E. S. Card Party And Dance Coming

The O. E. S. will hold their first card party and dance of the season on Monday evening, Nov. 15th. As usual those who attend may rely upon an enjoyable time. Good music will be provided for the dancing. Admission 75c each.

R. TYLER SELLING FARM EQUIPMENT

R. Tyler, John Deere agent, Champion, is holding a sale of his farm effects on Wednesday, November 10th. The list, contained in an advt. a week prior to this issue, is comprehensive and includes almost everything needed on a farm. All Hopkins is the auctioneer.

The boxing exhibition on Saturday night was well attended and the preliminaries were excellent. The main bout was marred, however, by the failure of one of the principals to show up and the opponents selected were no match for Don Dorcy.

J. M. Moffat has sold a total of eight new cars in the past few days, practically all of them of the higher priced class.

D. F. McRae has purchased a new Chrysler coupe and is now distinctly in the moulded farmer class.

Mrs. Gordon Kilburn, of Seattle, is visiting her parents, Mr. and Mrs. S. C. Milliken.

Here's a Real Record Yield

Sletto Bros., farming Clarence Davis' farms, west of town, threshed 32,554 bushels of wheat from 745 acres. This shows a yield of 43.71 bushels per acre. Twenty-eight acres of oats threshed returned 2,800 bushels. These results are from acres sown in case of the wheat, no effort being made to exclude any portion of the crop which might not yield up to the ordinary high mark. If there is any better yield any place in Alberta, over an acreage as large as this it would be interesting to know where it was. Small fields have exceeded this yield in this vicinity as well as elsewhere, but the average was not maintained over the whole crop.

More Entertainment For the Dancers

A dance will be held in McCullough's hall on Friday evening Nov. 12. Music will be supplied by the Champion four piece orchestra. Admission gentlemen \$1.00, ladies free.

Chicken Pie Dinner Tuesday, Nov. 8

Owing to conflicting dates the harvest home and anniversary services were postponed from Oct. 31st to Nov. 7th, while the chicken pie supper date was transferred from Nov. 2 to Nov. 8th.

Threshing Season Practically Over

While the greater number of threshing outfits were pulled in by the week end, there are still a few machines running. Since the long period of inaction caused by the wet weather wonderful progress was made and while the season was short it was very favourable to the machine operators.

Hallowe'en Dance Enjoyable Affair

The Hallowe'en dance, under the auspices of the W. I. was well attended and a very pleasant evening was spent by those who attended. The local orchestra received many compliments in regard to the music furnished. The proceeds were quite satisfactory to the promoters.

G. M. Campbell On Arbitration Board

G. M. Campbell has been appointed to the Film Board of Arbitration for Alberta and he was in Calgary on Tuesday for his first meeting. All disputes between distributors and exhibitors are referred to this board, and while the settlement is open to appeal their decisions usually prevail.

The grain situation at wheat terminal points is growing serious. Congestion at Fort William is blamed largely on the English coal strike, which is diverting shipping from grain to coal.

George Hohner, better known as "Goofy" has moved to Bellevue. What will we do without our town policeman?

Commercial rates on application.

THURSDAY, NOV. 4, 1926

NOTES AND COMMENT.

Quite a number of combines have been used in harvesting in this province this year and the general opinion appears to be that it will always have a place here in the future. While there is no expectation that there will be any speedy change in methods it is safe to infer the combine will be increasingly used as the years go by. For short grain it certainly exceeds the ordinary binder or header and cuts the cost to a minimum.

A conference between government officials and coal operators held at Edmonton, decided further coal shipments were unwise at the \$9 a ton rate. The final decision in the matter of freight rates is now in the hands of the railway commission and should they decide the rate cannot be lowered the shipment of Alberta coal to Ontario must be abandoned.

While there is an odd day's threshing still to do, the majority of the crews have been paid off and the threshing season may be said to be over. The season was short, but the excellent yield made it a fair season for the operators of machines, and the continuous fine weather at the end of the season was utilized to the greatest extent.

While the usual pile of machinery was missing from the streets after hallowe'en, considerable damage was done around town. This is likely to continue until the perpetrators are taken into court. There is no earthly reason why individuals should submit to having their property damaged to provide fun for anyone.

Those who thought Southern Alberta could never again produce such a crop as that of 1915 have revised their opinions since the threshing machines got to work. There are parts of Southern Alta. where the 1925 crops are better than those of 1915, and the cash returns are considerably greater. — Lethbridge Herald.

“Consistency Thou Art a Jewel”

One of the retailers attending a short course lecture in Manitoba recently was found to be wearing a cap with a brand name that showed it had been purchased from a mail order house. A dry goods man in a certain town in Manitoba goes out hunting with a hardware merchant but buys his shells from a mail order house. There is a druggist who gets his wives spring coat out of town, and a grocer's wife who sends to the mail order house for floor coverings which can be supplied by the local dealer at the same price or a trifle more.

If retailers want to overcome mail order competition they must observe the golden rule as applied to business. This

necessitates the development of a community spirit among the merchants of each town. A local merchant should be pleased to see even a customer of his own buy her dress or coat or shoes from a local competitor rather than send away for them. If he has lost business it is his duty to find out the reason and endeavor to prevent a similar occurrence. But he should not feel ill-disposed to the man across the street who has done something to keep the home trade at home. — The Alberta Retailer.

Calgary Power Co.
Is Coming

(Valley Advocate).

As we go to press we learn that negotiations between the Calgary Power Company and the Council of the Village of Blackie is practically completed and agreed upon for the extension of electric power from High River to Blackie. The Power Co. will commence construction work at the earliest possible moment with the view of completing same before winter sets in. Messrs. Galt and Thompson, representatives of the Company, and Mr. Ballachery, solicitor, were in consultation with members of the council on Wednesday afternoon and as a result of their deliberations the Company gave them assurance that they would do all in their power to push the line to completion in all due haste.

Tractors Fast
Replacing Horses

(Country Gentleman).

Tractor sales the first half of this year were the largest in history. Factories that suspended operations during the last year have resumed and are producing more machines than they did before the depression.

Farmers realize that they must reduce labor costs, and tractors properly used aid in this. With the broadening use of tractors has come a rising need for implements especially designed for the hard service of mechanical power.

The demand for tractors is no longer confined to the dry, hard lands of the Great Plains region but has spread through the diversified farming region, including the older farm states.

Census figures show that in 1925 the total number of tractors in the U. S. was 209,745 an increase during the preceding five years of 105 per cent. Even so there are still something like 5,800,000 farms to supply.

How many will there be when the next census is taken in 1930? Probably less than two millions. Horses and mules are growing old and each year their number is decreasing. Tractors must make up the deficiency in power.

Events are moving swiftly toward power farming and the adoption of engineering principles in agriculture making inevitable a science of farm economics and farm management. Agricultural colleges should wake up and prepare themselves to lead the way.

Petroleum Supplies
Fast Disappearing

(From Royal Bank Monthly Letter).

One column of petroleum as it is found in the ground contains the energy equivalent of 100 lbs. of T. N. T. yet present methods of oil extraction are such that only 17 per cent of the oil and gas taken from the ground is made available for use and the fuel.

PUBLIC INSTITUTIONS
Galt Hospital, Lethbridge

First-class Hospital Service at reasonable rates.

W. C. HOSKINS

their processing and the engines used are so inefficient that of the total energy latent in a new pool less than 1 per cent is ever used for the propulsion of an automobile. In dealing with the subject of power conservation, at the Williamson Institute of Politics this past summer, Mr. Henry L. Doherty called attention to the fact that while the automobile engines of the U. S. and Canada have a total capacity many times as large as the total horsepower of all the installed electric turbines in these countries, these countries are extremely wasteful, as their engines were built for dependability rather than for efficiency of fuel consumption. As a result of widespread use of the automobile and of its low efficiency, the world's liquid fuel resources are being exhausted.

The Birds of Western Canada

A volume of unusual public interest has just been issued by the Victoria Memorial Museum. This is a copiously illustrated work on the "Birds of Western Canada," by P. A. Taverner, ornithologist. It contains 280 pages of text matter, 312 text figures and 84 colored plates, and is larger and fuller than "The Birds of Eastern Canada," published a few years ago. It contains full descriptive matter for distinguishing the different species of birds noted on the nesting habits and distribution, and is crammed with interesting and vivid description setting forth the life histories and habits of the feathered creatures. The numerous illustrations are of the kind that illustrate and many of the colored plates are excellent reproductions of what in their class may be considered real works of art.

The Birds of
Western Canada

This volume should be in every school room of Western Canada. It is one that no student of natural history or bird lover in Canada can afford to be without. It is sold in heavy paper covers at seventy-five cents and can be had on application to the Director, Victoria Memorial Museum, Ottawa.

WHEN IN DOUBT TRY A WANT ADVT.

Local and General

Wear a poppy on Armistice Day.

A. A. Haliday, former merchant of Champion, was a visitor here this week.

Last Saturday was Red Cross tag day and the taggers met with a generous response to their appeal the total raised being satisfactory.

A unanimous decision to oppose Premier Fergusson in his own riding of Grenville. Prohibition Union held at Spencerville. The gathering was attended by Liberal, Conservative and Progressive prohibitionists alike.

After being confined to his room for fourteen weeks with a severe attack of rheumatism Frank Johnson now considers he is safely on the mend and hopes to be around again shortly.

Teachers Convention At Calgary

All the teachers of the staff of the Consolidated School with exception of the principal, Mr. Hofford, are attending the teachers' convention which takes place at Calgary on Thursday and Friday. The convention will deal mainly with detailed problems of teaching and will be divided into groups where discussion will be led by various teachers.

In addition to public schools from the Calgary district which lies between Bluff and Gleichen Okotoks and Crossfield there will be high school teachers from outside districts. This plan has been adopted this year for the first time as it has been found in the past that none of the rural inspectors contain enough high school teachers

to make a really good convention. This year high school teachers from the Calgary, High River, Bassano and Olds district will gather, numbering about 60 in all. The convention will be held in Central United Church. J. A. Smith, high school inspector will have charge of the program for the high school section. F. G. Buchanan, public school inspector for the Calgary district will have charge of the intermediate and primary section.

Entries Close**November 10th**

Those farmers in the province who plan to exhibit seed grain at the Chicago International Show this year are reminded that entries close at Chicago on Nov. 10th. Any entries received at the Seed Branch of the Department of Agriculture at Edmonton by

Nov. 8th will be in sufficient time. Exhibits of grain must be in Chicago by Nov. 22nd so that farmers who send their exhibits to the Seed Cleaning Plant at Edmonton are advised to have them there not later than Nov. 10th to ensure their reaching Chicago in time. The Department will pay carrying charges on all exhibits sent to the plant at Edmonton.

Livestock For Chicago Fair

Two carloads of prize cattle will go forward from Alberta to the Chicago International this month. Under the auspices of the Department of Agriculture and University, some fine animals will go forward. O. A. Boggs of Daysland will have six head of Herefords; F. Collett of Crossfield will have six head of Herefords; G. K. Allen of Crossfield will have dairy

shortorns; Alex. Mitchell of Calgary will have a Holstein bull, and W. P. Fleming will have a Hereford steer. The University will send the following: Aberdeen Angus, representing the herds of E. & E. A. Clemens, Sedgewick; Wm. Gibb, Killian; O. G. Granlin, Stavely; G. Ellett, Stratheona; Vauxhall Stock Farms, Vauxhall; C. H. Richardson, Bowden and two animals bred at the University. Five shortorns including senior yearling from G. N. Thomas, Youngstown; junior yearling from A. S. McDougall, Champion; one senior calf and two junior calves bred at the University. Three Herefords, a junior yearling from Parslow, Calgary, and

two junior yearlings bred at the University. One crossbred senior heifer bred at the University.

There is also an exhibit of a small flock of Hampshire sheep for Toronto.

**Chandler Piles Up
Big Mileage In
Oil Fields Work**

The U. S. Tool Co. of Long Beach, Calif. operating a fleet of sixteen Chandelers in their business of supplying tools and oil-well equipment to practically all of California's oil fields are enthusiastic about the performance of their cars.

One of their earliest Chandelers, a 1900 model, has had a particularly strenuous life being driven more than 100,000 miles to date. This car as well as all Chandelers used by the company gets hard usage in its daily trips over the rough terrain of the oil field districts.

Despite the unusual performance demands, it has not yet been found necessary to overhaul the car since its purchase early in 1919, and the car today is good for many thousand additional miles of good transportation.

U. S. Tool executives were so pleased at the performance of their Chandler that they recently purchased four additional 1927 Chandelers. Their comments are a tribute to Chandler durability and long life. "We require automobiles that are built of the best, since many times we find it necessary to deliver tools and equipment in some of our heaviest rainstorms and through much sand, mud and heavy going."

PIKE'S PEAK MOTOR TESTS

When Chandler engineers designed their Pike's Peak Motor, their final testing grounds were at Pike's Peak America's highest automobile mountain climb. Here, over twelve thousand feet above sea level temperature control, manifest action and combustion were studied exhaustively in order to produce a power plant that would function reliably regardless of climatic conditions.

CHASSIS LUBRICATION PERFECT

In the "One Shot" oiling system of chassis lubrication as used by Chandler, oil is strained through a finely meshed brass screen before entering the durable copper supply lines. Thus any possibility of the oil lines to clog has been effectively overcome.

The chicken pie supper on Mon. evening in Campbells hall will begin at 6 o'clock, the program following the supper. Admission, adults 50c children 25c.

More new land has been broken this year in this province than for some years according to reports received. This holds out the prospect for a considerably increased acreage next year.

Local and General

Thanksgiving Day Monday, November 8th.

Mr. Mrs. J. N. Beaubier visited Lethbridge on Thursday.

Mrs. B. Hummel left for Calgary on Thursday to spend Thanksgiving.

The Ladies Aid will meet at the home of Mrs. D. Watkins on Thursday, Nov. 18th.

The Catholic Women's League will hold their annual bazaar in Campbell's hall on Saturday, Nov. 27th.

Mrs. W. S. Ryan and son, Del, returned from an extended visit to Ontario during the week.

Thanksgiving Day on Monday a Dominion holiday. Banks and all other business places will be closed.

Louis Garry is advertising his house and lot for sale. Here is a chance for a village home. See advt. in want column.

Forrest Cool has purchased a Hupmobile coupe from J. M. Moffat, making another addition to the many fine cars in this district.

Every community needs farmers who profit by their own mistakes and try each year to do better than they did the year before.

The chicken pie supper, which was to have been held on Nov. 2, was postponed until Thanksgiving night. Don't miss it. Admission: adults 50c, children 25c.

Next Sunday afternoon at 3 o'clock Ev. Lutheran services will be held in the local Union church building. You are cordially invited to attend and take part.

Two new branch lines will be built by the C.P.R. next year. A line to the Gem colony will connect with the main line at Bassano and a line to the Bow Slope will link up at Cassils.

A new chimney, built on the church recently made quite a noticeable improvement in the looks of the building, and will undoubtedly prove a very useful addition to heating utilities.

The numerous threshing gangs paid off during the week disappear rapidly, Calgary seeming to be the popular place to go. No wonder the list of unemployed is growing in that city.

W. J. Porter has sold his farm adjacent to town, of one quarter section, to P. P. Peterson. The price paid is reported as a high figure. Mr. Porter and family will remain on the farm until spring.

According to A. J. Ruggles, of the Guess Ranch, crops east of Snake Valley, which were regarded as hopeless at one period of the summer are turning out from 25 to 30 bushel of wheat to the acre.

The ladies are requested to remember the W. L. meeting at Mrs. R. F. Nelson's on Tues. Nov. 9, Roll Call: Canadian Authors. Book review, Mrs. J. W. Cain. Refreshment convenor Mrs. J. Barker. Canadian Book pageant.

Among those who are attending the Lutheran convention being held in town are: Rev. Holtes of Claresholm, Rev. Mossner of Champion, Rev. Phils, mission director of the Lutheran church at Edmonton and Mr. Duverdt of Fincher Creek and Mr. Schroeder of Champion.—Lethbridge Herald.

"Where Fashion Reigns"

The R. H. Williams Co., of Calgary, will make a special showing of Coats, Suits and Dresses Saturday, Nov. 6, one day only.
